## I. INTRODUCTION

The Cheshire Public Schools is committed to consistently maintaining our facilities and planning for the future of our buildings as 21st century learning environments.

To initiate planning for a new K-6 Norton Elementary School, Cheshire Board of Education engaged the services of Colliers Project Leaders, and Daniel Hansen, educational consultant to assist with the development of these educational specifications. The following individuals participated in the initial specific program meetings to provide input for these educational specifications:

Shari Abelson, Art teacher - Chapman Renee Allister, 6th grade teacher – Chapman Kathy Ardesia, School Nurse – Norton Jean Aspinwall, School Counselor - Norton Erica Biagetti, Director of Food Services Christina Borger, Kindergarten teacher - Chapman Mark Brousseau, Supervisor of Technology Support Services Diana Burns, Principal - Chapman Brvan Campbell, General Music teacher - Norton Kathy Carlucci, Asst. Principal - Chapman, Norton Kristin Cheek, 4<sup>th</sup> grade teacher – Norton Richard Clavet, Director of Facility Services Mike Devine, Physical Education teacher – Norton Sandy Dube, Food Services – Norton Sarah Gambardella, Kindergarten teacher - Norton Kerry Gibbons, Special Education Secretary - Chapman Kelly Grillo, Principal - Norton Nick Gurrieri, 3rd grade teacher - Norton Alicia Hanson, 5th grade teacher – Chapman Devon Hart, Kindergarten teacher - Norton Fran Hauser, 5<sup>th</sup> grade teacher – Norton Allie Kennedy, 2<sup>nd</sup> grade teacher – Norton

Kara LaDore, 6<sup>th</sup> grade teacher – Norton Sue Landisio, Special Education teacher - Norton Michelle Leavitt, Main Office - Norton Kylee MacIntosh, Special Education teacher - Chapman Deb Manke, 6<sup>th</sup> grade teacher – Norton Vincent Masciana, Chief Operating Officer Carolyn McElravy, Library Media – Norton Heather McElroy, Special Education teacher - Norton Jamie Odell. Orchestra teacher - Chapman Michael Papa, Director of Technology Services Kylie Paradis, 4th grade teacher – Chapman Jill Puckett, Art teacher - Norton Garrett Rigali, 3rd grade teacher – Chapman Shannon Sniffin, Admin. Assistant to Principal - Chapman Marlene M. Silano, Assistant Superintendent Dr. Jeffrey Solan, Superintendent of Schools Susan Squire, 1st grade teacher – Chapman Steph Staszewski, 6th grade teacher - Norton Ali Therrien, School Counselor - Chapman Katherine Zukis, 1st grade teacher - Norton

# **II. CHESHIRE CORE DOCUMENTS**

#### CORE BELIEFS

# Our academic core beliefs are fundamental to the development of lifelong learners who will be successful in an ever-changing global society.

We believe the teaching and learning process is built on a strong curriculum that focuses on the fundamental skills of literacy, critical thinking and problem-solving skills as articulated in the Cheshire Performance Standards. Each student deserves to be challenged at his/her highest level in a safe, caring and positive environment. Our educational excellence depends on the shared goals and high expectations for achievement by our community.

# Our social and personal core beliefs provide the foundation for a positive learning environment and are necessary for the success of the learning process.

We strive to provide a learning environment that promotes the development of social skills and emotional well-being. We believe that the education community has a responsibility to respect the individuality of each learner. We believe in the importance of promoting: character and personal responsibility; citizenship; service; and leadership.

#### Our community core beliefs support partnerships that foster educational opportunities.

We believe the involvement and partnership of parents, students, staff, and community is critical to student success. Effective communication and accountability among stakeholders are essential to ensure a healthy school system. Financial support is imperative to operational success and to the achievement of our shared goals.

#### VISION

#### **Our Vision for the Cheshire Public Schools includes:**

- A curriculum built on sound foundational skills that promote lifelong learning, critical thinking, community involvement and global awareness.
- High standards of achievement for all learners based on vital concepts and skills and the Cheshire Public Schools performance standards.
- Effective, engaging and varied teaching strategies and learning tasks that promote appropriate challenge and rigor for each student.
- A learning community that embraces diversity and promotes respect, trust, and self-esteem, and is safe and free from alcohol, drugs, and violence.
- Classrooms in which learning is inspired and celebrated.
- Ongoing and effective communication and interactions between school, home, and the greater community.
- Students, teachers, parents use technology to enhance learning, teaching, and communicating.
- Facilities that are clean, well-maintained and meet the needs of today's learner.
- Appropriate resources to support the community's goal of educational excellence.

#### **III. PROJECT RATIONALE**

This project to construct a new Norton Elementary School is a key component of the Cheshire Public Schools Next Generation Phase I Plan, which has been developed to modernize all of the district's eight (8) aging school buildings so that they will properly serve the educational needs of current and future students for many years to come. A critical factor of the overall plan is to ensure that the district's total elementary school capacity will be able to accommodate the student enrollment growth that has been projected to occur over the next decade in Cheshire. The new Norton Elementary School as outlined in these Educational Specifications are consistent with and meet the requirements of the overall plan.

This project seeks to provide a school building that:

- Creates learning environments designed for current instructional strategies as captured in Cheshire's Core Documents;
- Benefits from needed technology upgrades;
- Complies with current building and fire codes;
- Incorporates contemporary design for school safety;
- Utilizes modern, efficient heating and cooling systems; and
- Provides accessibility to all by meeting the requirements of the Americans with Disabilities Act.

#### **IV. THE PROJECT**

**Objective**: To ensure all Cheshire children are able to attend a school that is safe, modern, compliant with current building codes and able to support their educational program.

The following project specifications for the new Norton Elementary School were developed using data from the population study conducted in March 2022 by SLAM.

- <u>School</u>: Norton Elementary School
- <u>Project Type</u>: New Construction
  - Building Program Area: **63,975** square feet
  - Net Building Area: **91,484** square feet (*Bldg Program Area x 1.43%*)
  - Total Gross Square Feet (outside face of walls): **96,058** square feet (*Net Building Area x 5%*)
- Anticipated Referendum: November 2022
- <u>Design Enrollment</u>: **661** students

#### V. ENROLLMENT AND CAPACITY DATA

The Norton Elementary School enrollment as of March 1, 2022 was 436 students in grades K - 6. The eight-year maximum enrollment projection for the new K-6 Norton Elementary School is 661, which includes redistricted students transferring from other schools to the new Norton Elementary School. Source: *School Enrollment Projections, March 2022 by SLAM* 

#### VI. OVERVIEW OF PROGRAMS

#### **GENERAL EDUCATION**

The features of the elementary classrooms at Norton can be divided into four classifications: (1) Early Childhood – Full-Day Kindergarten; (2) Early Elementary - grades one and two; (3) Intermediate - grades three, four and five; and (4) Upper Intermediate – grade 6. The classroom needs of all elementary children will require flexibility of space, portability of furniture and acoustical treatment of environment. This will be accommodated while providing low height furnishings and more space for group instruction and movement that will range from total class involvement to three or four separate groups doing different activities at the same time. Specific to Cheshire's instructional approach, whole class gathering spaces are required for class meetings, language arts and mathematics mini lessons. Space should also be provided for students to read, write, research, and study for either individual or small group projects. The learning environment must also accommodate space for multiple adults (specialists and para educators) who work with students within the general classroom environment. All instructional classrooms require storage space for items such as classroom libraries, textbooks, reference materials, supplemental books, supplies, science equipment, charts, globes, computers, calculators and audio-visual equipment. Equally important is wall space to post anchor charts and other instructional reference materials for students to access on a daily basis. In addition to the subject areas of Health & Wellness, Mathematics, Reading/Language Arts, Science, and Social Studies, our General Education program includes curriculum focused on Art, Music, and Physical Education. Additionally, an instrumental program is provided for all students in grades 5 and 6 as well as a World Language program for grade 6. Support Services include a Library/Media Center and technology support integrated throughout the learning environments. Facilities for these areas need to be specific to each program's purpose yet allow for flexibility of space as with the K-6 classrooms. As the K-6 program requires that students travel to these various program areas periodically during the day, consideration should be given to the student traffic that will result from this academic arrangement. Additionally, the sixth-grade program should be within a specified wing of the building to simulate a "middle school" environment where students travel among classrooms for different subject area instructional activities. It is important to note that due to a contractual obligation, special area teachers (art/music/PE) may teach a maximum of twenty-four (24) classes per week; therefore, there will be times during the week when two classes are being conducted for each area simultaneously thereby requiring additional instructional space for each area.

A platform off of the gymnasium will serve as a stage area for school assemblies, performances, supplemental area for instrumental music instruction, and other events. It will be adjacent to the gymnasium and accessible from the main corridor. The platform will be accessible and code compliant with ramp access. Included in the design will be a high-quality built-in sound system, stage draperies and main curtains, as well as adjustable stage and general lighting. An electronically controlled acoustical wall will be installed at the proscenium to allow the space to be used for activities such as instrumental music lessons and/or ensemble practice on the platform while the gymnasium is in use.

Additional instructional space is necessary to provide support for non-identified students, as prescribed in the Scientific Researched Based Intervention (SRBI) requirements of the Connecticut State Department of Education. General Education Intervention/Support Services is comprised of Reading, Mathematics and English Learner support (TESOL). Each of these rooms will be centrally located within the academic area of the building. These rooms will be utilized for individual testing, individual and small group instruction.

The outside play area for the early elementary and intermediate levels must be extensive and varied to accommodate activities that range from the minimal space demands of individual/small group play and the like, to larger areas needed to play soccer, kickball, softball, etc. This play area should be away from instructional spaces, if possible. Ideally, this play area should be in close proximity to gymnasium and cafeteria for easy access. The early childhood play area should be near the kindergarten classrooms, depending on the design of the school and proximity to other classrooms.

#### SPECIAL EDUCATION

Cheshire Public Schools invest significantly in their special education programming to best serve their students and in order to avoid costly outplacement services for their students. Special Education programs at the new Norton Elementary include: K-6 Special Education Resource, Occupational/Physical Therapy (OT/PT) Services and Related Services (Counseling, Psychologist, Speech/Language/Hearing, BCBA).

Program spaces for special education/related service teachers should be able to meet the needs for small group instruction. They will need to be of sufficient size to accommodate children who require specialized equipment. Rooms will be used for individual testing, confidential meetings with parents and/or students, individual and small group instruction, counseling, and staff conferences.

#### SUPPORT SERVICES

#### MEDIA CENTER

The Library Media Center of an elementary school is a multi-purpose room and preferred to be located as a central "hub" of the school and can be referred to as a Learning Commons. It should be bright, colorful, attractive, warm and inviting. It is important that the media center be designed with the student's safety in mind. There should be freestanding, moveable, low, double-faced shelving allowing a staff member to see the entire area. The area must be spacious enough to house an appropriate print and media collection. There should be room for multiple classrooms to use this resource on an independent basis. The room is divided for multiple purposes: a small story corner, a large group instructional "classroom" space, a student project area, a production area for teachers, provision for computer workstations for research and access to online card catalogue as well as a circulation area located near an entrance/exit door is also required.

#### **TECHNOLOGY**

A contemporary elementary school must be able to support varied uses of technology. In particular, the school's infrastructure should reflect the latest in wiring and cabling, which would support current technology applications as well as the capacity to support future requirements. Computers should support the full range of educational and operational functions in the school.

Wiring for all classrooms will include multiple network drops and multiple electrical outlets. The entire facility will have wireless connectivity to support the implementation of one-to-one mobile devices such as laptops, netbooks, and other Internet-ready devices.

#### VII. PROGRAM SPECIFICATIONS (Detailed Description)

Unless otherwise noted, the standard furnishings for every classroom noted below are expected to include the following:

- Room darkening shades
- Acoustical insulation for soundproofing
- Air conditioning
- ADA compliant building standards
- Wireless/internet access to support at least 30 mobile devices
- Multiple electric outlets to support charging of 1-1 student devices
- Sound Field System
- Telephone
- Intercom for communication with office

#### GENERAL EDUCATION PROGRAMS

#### EARLY CHILDHOOD: FULL-DAY KINDERGARTEN

**<u>SPACE</u>**: 1,100 square feet including student toilet room (each) **NUMBER**: Five (5) classrooms

EARLY CHILDHOOD	FULL-DAY KINDERGARTEN
Toilet	• Toilet room with a sink within classroom at a level appropriate for children ages 4-6
Sinks	<ul><li>Stainless steel sink with laminate countertops appropriate for 4 and 5-year old's</li><li>Soap and towel dispenser</li></ul>
Classroom Storage	Built-in bookcases
	• Storage areas for anchor charts, large bins/kits
	Classroom library storage
	Counters under windows where possible
Teacher Storage	• Lockable teacher storage wardrobe for 3 adults
	• One (1) lockable four-drawer filing cabinet
	Additional instructional storage closet in corridor to be shared by Grades K-1
Student Storage	• Coat and personal storage area for twenty-four (24) located within the classroom
	• Built in to allow for maximum site-lines for teachers
	Student mailboxes
Lighting	Soft color, dimmable lighting
Flooring	• Vinyl enhanced tile and area rugs
Display	• Magnetic whiteboards, at appropriate height
	Bulletin Boards or tackboard walls
Student Furniture	• Two (2) tables for small group instruction
	• Flexible seating/tables to accommodate up to twenty-four (24) students
	(flexible/adaptable workstations)
<b>Teacher Furniture</b>	• One (1) Teacher desk/chair
Classroom Technology	• Large screen interactive system, at appropriate height for K
	Document camera
Computers (each)	• 1-to-1 iPads for each student with charging station
	• One (1) teacher computer

EARLY ELEMENTARY – GRADES ONE and TWO			
<b><u>SPACE</u></b> : 900 square feet (each classroom)			
50 square feet (in-class toilet room)			
<b><u>NUMBER</u></b> : Ten (10) c			
Toilet	• Toilet room with sink within classroom at a level appropriate for children ages 6-8		
Sinks	Stainless steel sink with laminate counters		
	Soap and towel dispenser		
	In-room water bottle refilling station		
Classroom Storage	• Built-in bookcases (closed and open shelving)		
	Storage areas for anchor charts, large bins/kits		
	Classroom library storage		
	Counters under windows where possible		
Teacher Storage	• Lockable teacher storage wardrobe for three (3) adults		
	• One (1) lockable four-drawer filing cabinet		
	<ul> <li>Additional instructional storage closet in corridor to be shared by Grades K-1; Grades 2-3</li> </ul>		
Student Storage	• Coat and personal (non-locking) lockers for twenty-four (24)/classroom located in the corridor		
Lighting	• Soft color, dimmable lighting		
Flooring	Vinyl enhanced tile and area rugs		
Display	• Magnetic whiteboards (in addition to interactive system)		
	Bulletin Boards or tack board walls		
Student Furniture	• Two (2) small group instructional tables		
	• Flexible seating/desks/tables to accommodate up to twenty-four (24) students		

EARLY ELEMENTARY – GRADES ONE and TWO	
<b>Teacher Furniture</b>	• Teacher desk/chair
Special	Common space outside classrooms desirable
Needs/Equipment	
Classroom Technology	Large screen interactive system
	Document camera
<b>Computers (each)</b>	• 1-to-1 Chromebook device for each student with charging station
	• One (1) teacher computer

INTERMEDIATE – GR	ADES THREE, FOUR, and FIVE	
<b><u>SPACE</u></b> : 900 square feet (each)		
<b>NUMBER</b> : Fifteen (15) classrooms		
Toilet	Toilet facilities located in close proximity to classrooms	
Sinks	Stainless steel sink with laminate counter	
	• In-room water bottle refilling station	
	Soap and towel dispenser	
Classroom Storage	• Built-in bookcases (closed and open shelving)	
_	• Storage areas for anchor charts, large bins/kits	
	Built-in classroom library storage accessible to students	
	Counters under windows where appropriate	
Teacher Storage	• Lockable teacher storage wardrobe for three (3) adults	
	• One (1) lockable four-drawer filing cabinet	
	• Additional instructional storage closet in corridor to be shared by Grades 2-3;	
	Grades 4-5	
Student Storage	<ul> <li>Coat and personal storage areas are located in the corridors for up to twenty-six (26) students per classroom (one (non-locking) locker per student; double stacked)</li> </ul>	
Lighting	Soft color, dimmable lighting	
Flooring	• Vinyl enhanced tile and area rugs	
Display	• Magnetic whiteboards (in addition to the interactive system)	
	• Bulletin Boards or tackboard walls (prefer additional whiteboards vs. bulletin boards	
Student Furniture	• Small group instruction table and appropriate student seating for twenty-six (26)	
Teacher Furniture	• Teacher desk/chair	
Special	Common small group space outside classrooms desirable	
Needs/Equipment		
Classroom Technology	Large screen interactive system	
	Document camera	
Computers (each)	• 1-to-1 Chromebook device for each student with charging station	
	• One (1) teacher computer	

UPPER INTERMEDIATE – GRADE SIX			
<b><u>SPACE</u></b> : 900 square fee	<b>SPACE</b> : 900 square feet (each)		
<b><u>NUMBER</u></b> : Five (5) class	<b>NUMBER</b> : Five (5) classrooms		
Access	• Located within a separate wing of the school		
	• Close proximity to "specials" area (Art, Music, PE)		
Toilet	<ul> <li>Toilet facilities located in close proximity to classrooms</li> </ul>		
	Personal storage in girls' room		
Sinks	• Stainless steel sink with laminate counter; two (2) sinks in science classrooms		
	• In-room water bottle refilling station		
	Soap and towel dispenser		

UPPER INTERMEDIATE – GRADE SIX	
Classroom Storage	Built-in bookcases/cabinetry specific to subject areas
	• Storage areas for anchor charts, large bins/kits
	Classroom library storage
	• Counters under windows where appropriate
	Closet in Science and Social Studies rooms for student project work
Teacher Storage	• Lockable teacher storage wardrobe for three (3) adults
	One (1) lockable four-drawer filing cabinet
Student Storage	• Coat and personal storage areas are located in the corridors for up to twenty-six
	(26) students per classroom (one (non-locking) locker per student; double stacked)
Lighting	Soft color, dimmable lighting
Flooring	• Vinyl enhanced tile and area rugs
Display	Magnetic whiteboard
	Bulletin Boards
Student Furniture	• Mobile, flexible adjustable furniture and appropriate student seating for twenty- six (26)
<b>Teacher Furniture</b>	• Teacher desk/chair
Special	Common small group space outside classrooms desirable
Needs/Equipment	
Classroom Technology	Large screen interactive system
	Document camera
	Floor outlets for science classroom
Computers (each)	• 1-to-1 Chromebook device for each student with charging station
	• One (1) teacher computer

TEACHER/STAFF TEAM ROOM		
<b><u>SPACE</u></b> : 300 square fee	<b>SPACE</b> : 300 square feet	
NUMBER: One (1) room		
Sinks	• Sink, countertop	
	Soap and towel dispenser	
Storage	Closed cabinetry for classroom materials	
	Closed cabinetry for Math manipulative storage	
	• Deep shelving for large unit bin storage	
Furniture	• Table with six adult chairs	
	Coffee maker, microwave	
Technology	• Multi-Function Printer (MFP)	
	Interactive screen device	

VISUAL ARTS		
SPACE:	1,450 square feet (includes 350 s.f. for kiln room and storage)	
NUMBER:	One (1) classroom	
Sinks	<ul> <li>Minimum two (2) deep sinks with clay traps in addition to one (1) student accessible sink all in same location; sinks should be accessible to primary-age students</li> <li>Paint-resistant countertops</li> <li>In-room water bottle refilling station</li> </ul>	
Access	Adjacent to Auxiliary Visual Arts Classroom and Storage/kiln room	

VISUAL ARTS	VISUAL ARTS	
Classroom Storage	<ul> <li>Separate Storage Room</li> <li>Lockable closets</li> <li>Easily accessible cabinets and shelves</li> <li>Vertical file tub-storage cabinets with locks</li> </ul>	
Tanahan Stanaga	<ul> <li>Two (2) kitchen-type mobile carts with shelves</li> <li>Draftsman cabinet file for large paper/poster storage</li> <li>Lockable teacher storage wardrobe</li> </ul>	
Teacher Storage	<ul> <li>One (1) lockable four-drawer filing cabinet</li> </ul>	
Student Storage	• Space to store student work in progress; one area per classroom	
Lighting	North facing classroom, preferable	
Flooring	Vinyl enhanced tile; carpet area	
Display	<ul> <li>Fully locked showcase on room's corridor wall (and others throughout building)</li> <li>Magnetic whiteboard</li> <li>Bulletin Board</li> </ul>	
Student Furniture	• Twenty-six (26) adjustable chairs/stools	
Teacher Furniture	<ul><li>Teacher desk/chair</li><li>Demonstration table</li></ul>	
Other Furniture	• Six (6) adjustable worktables (rectangular) to seat six (6)	
Special Needs/Equipment	<ul> <li>One (1) kiln (to be appropriately located and sized) with ventilation system</li> <li>Drying racks</li> <li>Book racks and magazine shelves (fine arts area)</li> <li>Four (4) sturdy wooden adjustable painting easels</li> <li>Two (2) large rolling waste barrels</li> </ul>	
	<ul> <li>Eyewash station</li> <li>Paper cutter in storage room</li> </ul>	
Classroom Technology	<ul><li>Large screen interactive system</li><li>Document camera</li></ul>	
Computers	• One (1) teacher computer	

VISUAL ARTS AUXIL	LARY CLASSROOM
<b><u>SPACE</u></b> : 1,000 square feet (adjacent to 350 s.f. for kiln room and storage to be shared with	
Visual Arts Classroom)	
<b><u>NUMBER</u></b> : One (1) class	room
Sinks	<ul> <li>Minimum two (2) deep sinks with clay traps in addition to one (1) student accessible sink all in same location; sinks should be accessible to primary-age students</li> <li>Paint-resistant countertops</li> <li>In-room water bottle refilling station</li> </ul>
Access	Adjacent to shared materials storage/kiln room with the other Visual Arts classroom
Classroom Storage	<ul> <li>Lockable closets</li> <li>Easily accessible cabinets and shelves</li> <li>Vertical file tub-storage cabinets with locks</li> <li>Two (2) kitchen-type mobile carts with shelves</li> <li>Draftsman cabinet file for large paper/poster storage</li> </ul>
Teacher Storage	<ul><li>Lockable teacher storage wardrobe</li><li>One (1) lockable four-drawer filing cabinet</li></ul>
Student Storage	• Space to store student work in progress; one area per classroom
Lighting	North facing classroom, preferable
Flooring	Vinyl enhanced tile; carpet area

VISUAL ARTS AUXIL	VISUAL ARTS AUXILLARY CLASSROOM	
Display	• Two-sided fully locked showcase on room's corridor wall (and others	
	throughout building)	
	Magnetic whiteboard	
	Bulletin Board	
Student Furniture	• Twenty-six (26) adjustable chairs/stools	
Teacher Furniture	Teacher desk/chair	
	Demonstration table	
Other Furniture	• Six (6) adjustable worktables (rectangular) to seat six (6)	
Special	• One (1) kiln (to be appropriately located and sized) with ventilation system	
Needs/Equipment	Drying racks	
	• Book racks and magazine shelves (fine arts area)	
	• Four (4) sturdy wooden adjustable painting easels	
	• Two (2) large rolling waste barrels	
	• Eyewash station	
	Paper cutter	
Classroom Technology	Large screen interactive system	
	Document camera	
Computers (each)	• One (1) teacher computer	

GENERAL AND INST	RUMENTAL MUSIC
<b><u>SPACE:</u></b> 1,000 squa	re feet for General Music
1,000 squa	re feet for Instrumental Music (including instrument storage)
<b><u>NUMBER</u></b> : One (1) ro	om for General Music $(K - 6)$ , and one (1) space for Instrumental
Music (Gr. 4-6)	
Sinks	Small sink area in both Music rooms
	Additional large sink in Instrumental Music room to submerge brass
	instruments for cleaning (3' wide by 8" deep)
	In-room water bottle refilling station
Access	• In proximity to gymnasium and platform (stage)
	• Instrumental room ideally located near bus entrance for easy drop off/pick up of instruments
Classroom Storage	• Music cabinets for sheet music storage (each room)
_	Built-in bookcases
	• Open storage for Orff instruments for general music classroom (accessible to students)
	<ul> <li>Movable cart storage for Music library collection (may be shared among classrooms)</li> </ul>
Teacher Storage	Lockable teacher storage wardrobe in each space
0	• One (1) lockable four-drawer filing cabinet in each area
Student Storage	• Built-in lockable storage for instruments (low built-in cubbies at instrumental
_	music room entrance)
	Rack storage for large string instruments
Lighting	Soft color, dimmable lighting
Flooring	Carpet in both music classrooms
Display	• Two 8 ft. whiteboards, one with permanent musical staff lines (each room)
Student Furniture	• Eighty (80) stackable chairs for instrumental room
	• Twenty-six (26) stackable seating in general music room
<b>Teacher Furniture</b>	Teacher desk/chair

GENERAL AND INSTI	RUMENTAL MUSIC
<b>Other Furniture</b>	• Eighty (80) music stands for instrumental room
	• Two (2) conductor's stands
	• Large Move and Store cart for music stands
	Electronic keyboard in both music rooms
	• Flexible, adjustable platforms/risers (such as "Flip Forms") in general music
	room
Special	General music room needs open space for movement and varied activities
Accommodations	<ul> <li>Sound deadening/soundproof walls</li> </ul>
	<ul> <li>Acoustical divider built between platform and gymnasium</li> </ul>
	• Instrumental lessons and large group ensembles require 48" of space per student
Classroom Technology	• Sound systems in both rooms
	Large screen interactive system in each room
<b>Computers (each)</b>	• One (1) teacher computer with access to high quality sound system control (each
• • • •	room)

MUSIC ENSEMBLE PI	RACTICE ROOM
<b><u>SPACE:</u></b> 1,000 squa	re feet
<b>NUMBER</b> : One (1) ro	om
Sinks	Small sink area
	In-room water bottle refilling station
Access	• In proximity to gymnasium and platform (stage)
	Adjacent to General and Instrumental music rooms
	Adjacent to Multi-purpose Room
Classroom Storage	• Music cabinets for sheet music storage (each room)
	Built-in bookcases
	• Open storage for Orff instruments for general music classroom (accessible to
	students)
	<ul> <li>Movable cart storage for Music library collection (may be shared among classrooms)</li> </ul>
Teacher Storage	Lockable teacher storage wardrobe in each space
Teacher Storage	<ul> <li>One (1) lockable four-drawer filing cabinet in each area</li> </ul>
Student Storage	•
Lighting	• Soft color, dimmable lighting
Flooring	Carpet in both music classrooms
Display	• Two 8 ft. whiteboards, one with permanent musical staff lines (each room)
Student Furniture	• Eighty (80) stackable chairs
<b>Teacher Furniture</b>	• Teacher desk/chair
Other Furniture	• Eighty (80) music stands for instrumental room
	• One (1) conductor's stand
	Large Move and Store cart for music stands
	Electronic keyboard
	Flexible, adjustable platforms/risers
Special	Open space for movement and varied activities
Accommodations	Sound deadening/soundproof walls
Classroom Technology	• High-quality sound system
	Large screen interactive system
<b>Computers (each)</b>	• One (1) teacher computer with access to high quality sound system control (each
	room)

SPACE:       Gymnasium:       6,000 square feet         PE Office/Storage:       800 square feet (includes 300 s.f. office (Restroom TBD))         Chair Storage:       200 square feet         Sinks <ul> <li>Recessed In-room water bottle refilling station</li> <li>Capacity to hold entire student body, staff and faculty</li> <li>Convenient access to ball fields</li> </ul> Storage <ul> <li>Folding scating/storage for entire student body, staff and faculty (separate storage from PE equipment)</li> <li>Storage area will have access from both the interior of the gymnasium, as well as the exterior of the building (for outdoor sports and playground activities); a roll-up exterior access door is desired</li> <li>Six (c) shelving units (48*x18*x72") inside storage facility</li> <li>Lighting</li> <li>Lighting with safety cages or equivalent</li> <li>Flooring</li> <li>Sound deadening/soundproof walls including acoustical wall dividing platform (stage) from gymnasium</li> <li>Celrestory windows with remote room darkening shade system</li> <li>High celling, the lowest features should be a minimum of 22 ft. from the floor</li> <li>Wall matting around entire perimeter, from height of wall base to 6'-0" minimum above finish floor</li> <li>Removable wall matting along front of platform as well.</li> <li>Two (2) main and four (4) side baskets for basketball (all adjustable for height and electrically operated)</li> <li>Volleyball post recessed floor sleeves</li> <li>Chinning bars</li> <li>Horizontal bar</li> <li>Divider curtain</li> <li>Ceiling mounts for cargo nets and rope climbing</li> <li>One wall to be designated for future climbing</li> <li>Betectric retractable bl</li></ul>	PHYSICAL EDUCATION

LIBRARY MEDIA CENTER	
<b><u>SPACE</u></b> : 2,950 square f	eet (includes 200 s.f. office for media staff and 200 s.f. work room
with Multi-Function Print	er [MFP])
Sinks	Sink in media center workroom
	Kitchenette in workroom
Access	Centrally located in the school
	Access to outdoor garden area, desirable
Storage	Audio-visual storage cabinets
_	Over-size vertical filing cabinet
	Storage/display for teacher resources and professional development materials

LIBRARY MEDIA CEN	NTER
Teacher Storage	• One (1) lockable four-drawer filing cabinet in office
	• Two (2) lockable teacher wardrobe closets
Lighting	Remote control room darkening blinds
Flooring	• Wall to wall carpeting
Display	Magnetic whiteboards
	Bulletin Boards
	• Well-placed and secure space for displays and promotional materials
Student Furniture	• Tables and chairs with sleigh legs; easy to reconfigure
	• Computer furniture/workstations for two (2) student computers
<b>Teacher Furniture</b>	• Two (2) teacher desks/chairs; Two (2) adult visitors chairs
Other Furniture	• 48-inch free standing, double-faced shelving for student print materials; on
	wheels for adjusting space layout
	• Comfortable lounge style seating – adult and student
Space Considerations	Staggered/tiered stepped story corner
-	• Area for independent study;
	• Study room for 2-3 students with windows
	• Separate area for whole class instruction with partial wall
	Maker Space area
	• Informal seating or an informal area with comfortable chairs
	• Space should be able to accommodate staff professional development activities
Classroom Technology	Sufficient outlets to support all technology
	• Sound system for large group events
	• Online circulation system (2 circulation stations)
	• Large screen interactive system (2 – one for classroom area; one for general
	media center area)
	Copier in workroom
Computers (each)	• Two (2) student computers to access circulation
	• One (1) Chromebook cart (class set)
	• Two (2) teacher computers

SMALL BREAKOUT R	ROOM	
SPACE: 125 square fee	<b><u>SPACE</u></b> : 125 square feet (each) for individual assessment with teachers and/or small group	
work with para	a educators	
<b><u>NUMBER</u></b> : Three (3) r	ooms	
Access	In close proximity to general education classrooms	
Teacher Storage	Closet for general materials	
Lighting	Soft color, dimmable lighting	
Flooring	Vinyl enhanced tile	
Display	Magnetic whiteboard	
	Bulletin Board	
Furniture	• One (1) table	
	• Four (4) student chairs	
	• One (1) teacher chair	
Technology	Wire for future large screen interactive system	

READING/MATH COACH'S OFFICE	
<b><u>SPACE</u></b> : 200 square feet (each) for meetings with teachers	
NUMBER: Two (2) rooms	
Access	• In close proximity to main office
Teacher Storage	Bookshelves, cabinets, lockable teacher wardrobe
Lighting	Soft color, dimmable lighting

READING/MATH COACH'S OFFICE	
Flooring	• Carpet
Display	Magnetic whiteboard
	Bulletin Board
<b>Teacher Furniture</b>	• Teacher desk, small table with four (4) chairs
Computers (each)	• Teacher computer

GENERAL EDUCATIO	<b>DN INTERVENTION SERVICES – READING AND MATH</b>
<b><u>SPACE</u></b> : 600 square fee	t (each) for Reading and Math Intervention, each space to
accommodate 4 adults working with small groups	
NUMBER: Two (2) room	ms
Sinks	Stainless steel sink with laminate counters
	Soap and towel dispenser
Access	In close proximity to general education classrooms and SPED Resource
Classroom Storage	Built-in bookcases
5	• A walk-in supply closet with shelving installed in each room
	Counters under windows where possible
	<ul> <li>Separate literacy closet adjacent to Reading Room (included in "Instructional Storage")</li> </ul>
Teacher Storage	• Lockable teacher storage wardrobe for four (4) adults
	• Two (2) lockable four-drawer filing cabinets
Lighting	Soft color, dimmable lighting
Flooring	Vinyl enhanced tile and area rugs
Display	Magnetic whiteboards
	Bulletin Boards
Student Furniture	• Differentiated student tables and chairs to accommodate K-6 students
<b>Teacher Furniture</b>	• One (1) Teacher desk/chair
<b>Other Furniture</b>	Visitor's chairs
Classroom Technology	Large screen interactive system
Computers (each)	• Eight (8) student computer devises with charging station
	• One (1) teacher computer

# SPECIAL SERVICES PROGRAMS

# Grades K-6 Special Services Programs

SPECIAL EDUCATIO	SPECIAL EDUCATION RESOURCE	
<b><u>SPACE</u></b> 400 square fee	<b><u>SPACE</u></b> 400 square feet (each)	
<b><u>NUMBER</u></b> : Four (4) clas	srooms	
Sinks	Stainless steel sink with laminate counter	
	Soap and towel dispenser	
Access	Close proximity to general education classrooms and to each other	
	• Close proximity to related services (SW/Psych/SLH), preferred	
	Quiet area of school; away from Music, PE, playgrounds	
Classroom Storage	Built-in bookcases	
	• Storage areas	
	Counters under windows where possible	
<b>Teacher Storage</b>	• Lockable teacher storage wardrobe for four (4) adults	
	• Two (2) lockable four-drawer filing cabinets	
	Access to shared testing materials	

SPECIAL EDUCATION	SPECIAL EDUCATION RESOURCE	
Lighting	Soft color, dimmable lighting	
Flooring	• Vinyl enhanced tile and area rugs

Accommodations	<ul> <li>Sound reducing measures</li> <li>Soundproof divider between kitchen and cafeteria (for when kitchen is not in use)</li> <li>Bulletin boards</li> <li>Murals or décor signage</li> </ul>
Technology	<ul> <li>Localized public address system – must integrate with building system</li> <li>Large screen device (matrix of flat panel LED's or multi-cast to multiple LED's) for Professional Development activities</li> <li>Electronic Signage sized appropriately for the space</li> <li>WIFI – full coverage</li> </ul>

FOOD SERVICES – KITCHEN						
<b><u>SPACE</u></b> : 1,950 square feet – Kitchen						
150 square feet – Food Manager's Office (included)						
Toilet	• Locker room for ten (10) with adjacent unisex toilet room					
Sink	• One (1) three bay deep sink with drain board and garbage disposal					
	• Two (2) double well stainless-steel produce sink					
	• One (1) triple well stainless-steel pot wash sink					
	• Four (4) hand sinks with soap and towel dispensers					
Access/Location	In close proximity to loading/delivery dock					
Lighting	Task lighting over preparation areas					
Flooring	• Epoxy flooring – stable non-slip surface, must be easy to sweep and mop					
U	• Appropriately pitched floor with multiple floor drains and water source for custodial purposes.					
Storage	• Four (4) stainless steel utility carts, three shelves, #300/#400 capacity					
	• Two (2) stainless steel cart for tray storage, ADA accessible					
	• Adequate space for annual supplies (dry storage)					
	• Dry storage with metro racks with a can rack					

FOOD SERVICES – K	ITCHEN						
Furniture	Office desk/chair						
	• Visitor's chair						
	• File cabinet						
	Storage shelving						
Space Considerations	• Large walk-in storeroom with heavy-duty wire mesh chrome-mate shelving						
(required)	• Dishwasher room with necessary utilities (racks and tray carts)						
(	• High-capacity appropriate commercial grade dishwasher that can accommodate						
	large sheet pans						
	• Four (4) serving lines with built-in hot and cold units						
	• Can washing area (outside, near dock – custodial)						
	Break room						
Food Services	• One (1) slicer on stand						
Equipment	• One (1) 30-gallon mixer						
1 1	• One (1) double steamer						
	• Two (2) combi-oven (steam/convection)						
	• One (1) commercial microwave oven						
	• Four (4) double convection ovens						
	• Two (2) small double kettles						
	• Tilting skillet						
	• One (1) food processor						
	• Pizza oven						
	• Walk-in freezer, minimum 196 square ft. with shelving for 3 weeks of food						
	• Walk-in refrigerator, minimum 144 square ft. with shelving						
	• Two (2) pass-thru refrigerators near serving line						
	• Two (2) pass-thru warmer near serving line						
	• Dry storage room						
	Paper goods and chemical storage						
	• Steam table with five (5) wells						
	• Cold well in serving line for fruits, vegetables and salads						
	• Six (6) preparation tables (stainless steel) at least 5' from ovens; one with						
	locking drawer for knives; shelves to store pots, pans, etc.						
	• Milk coolers in kitchen, not cafe						
	• ice cream freezers						
	• Exhaust fans (ventilation) for ovens, skillet, stove, etc.						
	Exhaust fans (ventilation) in washroom and pantry areas						
Technology	• Three (3) cash registers and stands (point of sale system – including data drops)						
	• One (1) computer (Food Services Office - requires data drop)						
	• Two (2) telephones (one in Manager's Office and one in Kitchen Prep Area						
	(amplified ringers)						

FACULTY LOUNGE						
<b><u>SPACE</u></b> : 600 square feet (Combine with 300 sq ft Teacher Workroom)						
Toilet	Foilet         • Faculty toilets adjacent to faculty lounge					
Sink	Stainless steel sink with laminate counter					
	• Soap and towel dispenser					
Access/Location	Close proximity to the major instructional section of the school					
Lighting	Provide windows and maximize natural light					
Flooring	Vinyl enhanced tile					
Storage	Built-in upper and lower cabinets					
Furniture	Soft seating					
	• Tables and seating for twenty (20) people					

FACULTY LOUNGE	
Equipment	<ul><li>Microwave oven</li><li>Refrigerator</li><li>Coffee maker</li></ul>

TECHNOLOGY WORKROOM/STORAGE				
<b>SPACE</b> : 200 square feet				
Access/Location • In close proximity to data closet				
Flooring	• Vinyl enhanced tile			
Storage	• Shelving			
Furniture	Counterspace with tall chair			
Computers	• One (1) computer			
-	Additional network connections to repair equipment			

CUSTODIAL OFFICE				
<b><u>SPACE</u></b> : 150 square feet				
Toilet	• Locker room for four (4) with adjacent unisex toilet room			
Access/Location	• In close proximity to Cafeteria; loading/receiving dock/mechanical room			
Flooring	• Vinyl enhanced tile			
Storage	Locked cabinet			
	• Storage for outdoor equipment (separate space) with access from outside			
Furniture	• Desk/Chair			
	• Two (2) adult chairs			
Computers	• One (1) computer			
_	Video surveillance system			

## STORAGE

**<u>SPACE</u>**: 800 square feet – Instructional Storage (Literacy closet; K-1 storage; 2-3 storage; 4-5 storage) Grade 6 storage is included in team room

#### 600 square feet – General Storage

(These storage spaces are separate from custodial storage/washroom spaces for supplies and equipment; accounted for in CORE Factor.)

# VIII. COMMUNITY USE

The community uses Cheshire elementary schools before and after school hours. Some of the groups that regularly use the facilities include:

- Cheshire Parks and Recreation Department
- Registrar of Voters
- Cheshire YMCA Childcare and Summer Camp

- Scouting organizationsAlbertus Magnus College
- PTO

# IX. ENVIRONMENT – SYSTEMS – EQUIPMENT

SYSTEM	SPECIFICATIONS				
Building Systems	• The building systems incorporated into the new construction will be designed in accordance with Connecticut High Performance Building standards, equivalent in performance to a LEED Silver rating. In addition, utilizing energy sources including solar and geothermal as well as net zero energy and/or emissions will be considered in the building design in the context of a 50 year estimated useful life. This should include cost estimates of energy—and other known, direct—costs over that time span for all energy sources.				
Heating/Cooling (HVAC) System	<ul> <li>Heating &amp; cooling should be produced with natural gas with condensing boilers for heating, rooftop DX or centralized chilled water for cooling. Consider including geo-thermal wells for energy efficiency. Heating and cooling systems shall be designed with the appropriate redundancy typical for a school setting.</li> <li>Consider the use of a centralized chilled water plant to provide building-wide A/C.</li> <li>All spaces are to receive air conditioning, but only those areas with summertime use will have the systems running year-round; all other areas will have systems set to dehumidification only during summer months.</li> <li>Energy recovery units, VFD fan systems, exhaust, make-up air, and pumps to be utilized in the design.</li> <li>Consider in-slab hydronic heating delivery for Pre-K and Kindergarten classrooms.</li> <li>Perimeter heating will be provided by hot water fin tube radiation and possible use of ceiling mounted radiant panels, cooled and heated by a VAV system with each room served by a dedicated VAV box and hydronic reheat coil.</li> <li>The use of "chill beams" will be considered for general heating and cooling. Designer to provide additional information on chill beam systems to Owner.</li> <li>The gymnasium/auditorium and cafeteria will be served by separate variable speed air handlers. Air handlers shall include a hot water heating coil and DX or centralized chilled water-cooling coils.</li> </ul>				
Climate Controls/ Ventilation System	<ul> <li>The building will be designed with Direct Digital Control (DDC) systems (Distech or Automate logic) centrally tied into the School Facilities Department's building automation systems (BAS) via Graphical User Interface.</li> <li>Spaces should have independent, on demand heating, cooling, ventilation and dehumidification control through a building automation system (BAS) capable of scheduled setbacks for operational efficiency.</li> <li>Each classroom will be provided with a temperature sensor and carbon dioxide sensor. The carbon dioxide sensor is an energy saving device. By sensing the carbon dioxide within the room, the outside air intake is adjusted, reducing the amount of outside air being heated or cooled, resulting in less energy used.</li> <li>Rooftop economizers, general exhaust and kitchen exhaust to be controlled via DDC</li> <li>Climate controls/ventilation systems need to meet current codes and standards.</li> <li>Data network MDF and IDFs must be climate controlled (A/C)</li> </ul>				

SYSTEM	SPECIFICATIONS			
Lighting System	• Efficient and appropriate natural lighting will be maximized within the facility			
	as appropriate for the programmatic use of the spaces. Consider interior lighting			
	temperatures no greater than 4000 K°			
	• Motion sensors, temperature sensors and dual switching will be installed in			
	classrooms.			
	• The use of dimmable LEDs throughout, with exceptions in specialty areas.			
	• Attention should be given to security lighting for both interior and exterior of			
	the building. Consider exterior lighting fixtures that down light versus flood.			
	• Consider programmable LED lighting fixtures with stepped drivers as an energy conservation measure.			
	<ul> <li>Exterior lighting to be controlled via photocell.</li> </ul>			
	<ul> <li>Excertify righting to be controlled via photocen.</li> <li>Emergency back-up will be via self-contained battery ballasts or DC power if</li> </ul>			
	available.			
	The use of light shelves and light- harvesting sensors/controls for natural light to			
	reduce electrical load shall be considered in locations where possible.			
Electrical (Power) System	• Power to be provided by a local utility company.			
	• Consider solar roof/ground mounted.			
	• Consider exterior EV charging stations.			
	• Distribution will include customer metering, voltage and phase monitoring.			
	Outputs to be provided for each main switch gear for supervisory monitoring.			
	• Emergency (whole building) generator to accommodate Life Safety needs.			
	• Generator must be sufficient to support critical IT equipment in MDF and all			
	IDFs as well as administrative offices and Nurse's office.			
	• Generator must support critical kitchen equipment with the intention being to			
	cook, serve, and store food. (Hoods, ovens, serving line, freezer, refrigeration,			
	etc.)			
	Generator must support critical HVAC systems with priority to heating systems. Consider battery storage as an option for back-up power.			
	<ul> <li>Classroom space power distribution shall consider isolated ground circuits for</li> </ul>			
	smart boards, work centers, computer labs and charging stations.			
Technology	Office and workspace with storage for Technology Personnel with sufficient			
	data drops and power to support technology in the building.			
	• Each instructional space and conference room outfitted with a 75" interactive			
	flat panel with connections run to a wall plate.			
	• Sound system in each room to amplify connected source as well as connected			
	to a wireless wearable teacher microphone			
	• Multiple data drops with sufficient power in every classroom and meeting			
	space.			
	• Latest generation full WIFI coverage throughout the entire building including			
	basement.			
	• Shared printing stations to support multiple classrooms in convenient locations throughout the building. These will be fully separate areas and not a storage			
	closet or in a classroom.			
	<ul> <li>Head end equipment to be housed in an MDF with 24-hour environmental</li> </ul>			
	control and supervisory monitor.			
	<ul> <li>All IDF closets require 24-hour environmental control and supervisory</li> </ul>			
	monitor.			
	Horizontal cabling shall be Category 6e plenum rated or contemporary			
	equivalent.			
	• Cable runs that penetrate fire walls shall be framed in wall and appropriately			
	fire stopped as required by code.			
	• Fiber backbone between the MDF and IDF rooms shall be capable of at least			
	10GB minimum anticipating future growth.			
	• Fiber optical cable from street to MDF also must support 10 GB as well as			
	anticipate future growth			

SYSTEM	SPECIFICATIONS					
Security	Digital video surveillance of exterior/interior areas of the building integrated					
	with the district system.					
	• Electronic security system with biometric access control installed into the					
	school.					
	• Design the plan to prevent access to instructional areas of the school when					
	community events take place in assembly areas during non-school hours.					
	Motion sensors shall be mounted in corridors.					
	Respond to future state and/or federal mandates related to security					
	requirements for elementary facilities (i.e., panic button systems)					
	Door locks shall be Corbin Russwin and integrated with the existing SPS     suptom All exterior doors shall be Madaes					
	system. All exterior doors shall be Medeco. Interior/exterior speakers for announcements					
	<ul> <li>Interior/exterior speakers for announcements</li> <li>Lockdown strobes interior and exterior of building</li> </ul>					
	<ul> <li>Exterior doors and windows shall be labeled with high visibility numbering.</li> </ul>					
Phone System	<ul> <li>A comprehensive, district-integrated phone system (dial-out) will be</li> </ul>					
i none bystem	integrated into technology scope of the project, including hands-free and					
	handle options.					
	<ul> <li>Must be capable of reporting originating room identification as part of E911</li> </ul>					
	call.					
	• Install phones in every room of the facility occupied by teachers or students at					
	any given time, including all meeting, support and instructional spaces.					
	Provide Voice Over "IP" options.					
Public Address	• The building's public address system is comprehensive and will be addressed					
	as part of the technology component of the project to incorporate internal					
	building communications as well as external communications.					
	• The PA system should be developed in conjunction with the phone, clock,					
	data, voice and DIVOS video distribution system of the school.					
	• Secondary access to security and public address systems will be located in the					
	MDF/Head End Room.					
	• The PA system should extend to the exterior of the building to cover athletic fields and playgrounds.					
Clocks	<ul> <li>Clocks, similar to the phone system, will be integrated into the technology</li> </ul>					
CIUCKS	component of the project.					
	<ul> <li>All support and instructional spaces will be included.</li> </ul>					
	• System to have manual override capability in the event that Daylight Saving					
	Times are adjusted by the Federal Government-					
	• Wireless connected wall clock with hands mounted in each instructional space					
	with electrical outlet behind clock. These clocks require the ability to be					
	centrally managed, synchronized with error reporting.					
Plumbing System	• Plumbing fixtures/systems will be designed per current and applicable codes.					
	• Consider plumbing chases and wet walls that are accessible and do not require					
	confined space entry.					
	<ul><li>Fixtures will be self-operating utilizing low voltage controls.</li><li>Plastic piping to be considered for domestic water and heating where possible.</li></ul>					
	<ul> <li>Floor drains with trap primers in gang toilet areas and general spaces where</li> </ul>					
	• Floor drains with trap primers in gang tonet areas and general spaces where floor drains exist.					
	<ul> <li>Plumbed for full whole building sprinkler system including Siamese</li> </ul>					
	connections.					
	• All plumbing headers, branches and wet walls can be isolated utilizing ball					
	valves.					
	• Sanitary cleanouts to be accessible.					
	• All kitchen designs shall incorporate an in-floor grease trap system. Basis of					
	design brand – Zurn					
	• Industrial arts, science labs and maintenance shop shall include wall-mounted					
	stainless steel open bowl eye wash stations.					

SYSTEM	SPECIFICATIONS
Fire Protection	<ul> <li>Building will be fully protected by a sprinkler system installed per NFPA 13.</li> <li>Waterless fire suppression systems required in MDF and IDFs, unheated spaces and refrigerators and freezers with appropriate redundant detection.</li> </ul>
Fire Alarm	<ul> <li>The building will be protected by an intelligent fully-addressable digital, manual and automatic fire alarm system. Notifier by Honeywell fire alarm system NFS2-3030 is the basis of design preferred in all schools.</li> <li>Main entrances shall include Knox rapid access system (box) flush mounted in the building exterior for 1<sup>st</sup> responder access.</li> </ul>
Acoustics	<ul> <li>The building will comply with ANSI S12.60-2002: Acoustical Performance Criteria, Design Requirements and Guidelines for Schools.</li> <li>Suspended impact-resistant acoustical ceilings and/or acoustical decks will be installed throughout the building.</li> <li>Corridor walls should be constructed of glazed concrete masonry units, or materials with a comparable NRC rating, and provide an adequate separation for sound control.</li> <li>In specialized areas, such as media centers, appropriate acoustical treatments will be installed.</li> <li>Sound field system will be provided in each classroom.</li> <li>Consider music classroom and practice area interior acoustics and exterior acoustic isolation.</li> <li>Consider in-wall acoustical sound batting for administrative and special needs offices.</li> </ul>
Windows/Doors	<ul> <li>Windows should be a high efficiency, non-operational type with low e-glazing with insulated frames.</li> <li>Emergency egress windows and rated doors will be installed in accordance with applicable codes.</li> <li>Consider remotely operated automatic door control system, key fobs, proximity card readers, vision panels – review with District and integrate with security section.</li> <li>Designated classroom door locks shall be Securitech QID deadbolts. Non classroom designated rooms shall be Sargent Assa Abloy mortise locks w/deadbolts.</li> </ul>

## X. SITE DEVELOPMENT

There will be two primary entrance areas to the building: (1) the Main Entrance for visitors and parent drop off/pick up; (2) K-6 student entrance for bus drop-off/pick up. Passive security measures, such as visual control of the entrances from the adjacent office area, must be planned for. Active security measures and systems will be developed with the building design. Adequate lighting for monitoring activities and ensuring safety are of paramount importance at the building entrances. Entry overhangs or covered walkways will be provided for inclement weather to the extent practicable.

Bus loading areas should be configured as a one-way drive in a direction to assure that loading and unloading of students occurs from the right-hand side of the vehicle adjacent to the building. The drive will have two lanes: one for travel, and one for stopping and unloading. The bus loading driveway should be located such that buses exit upstream of automobiles, thereby reducing delays.

Parent drop-off areas will also be configured as a one-way drive in a direction to ensure that loading and unloading of students occurs from the right-hand side of the vehicle adjacent to the building. Student drop-off and pick-up areas are to be separated from the bus loading area, and preferably should be separate from other parking lots. A Receiving/loading dock should accommodate 18-wheeler vehicles and should be located in such a way as not to interfere with primary entrance areas yet be close to kitchen/custodial area.

Parking for staff and visitors will be developed to take the multiple uses of the building into account. In determining the size and location of the parking lots, consideration will be given to the use of the building for community access as well as student safety. ADA and other code requirements will be addressed in the design of parking. Sidewalks will be featured around the perimeter of the school and shall be concrete with monolithic concrete curbing. Access to the parking lots, playfields, bus and parent pickup/drop-off areas, and access for student walkers

will be addressed. Sidewalks should be designed to accommodate students who walk or ride bicycles to school. The number of driveways that are crossed by sidewalks should be eliminated/minimized as much as practicable.

Playgrounds will include paved (dry) play areas, replacement multi-purpose fields, and new playscape equipment. Kindergarten play area should be located in close proximity to their classrooms and enclosed by a fence.

Intermediate play areas should be located away from classroom areas, and in close proximity to the gymnasium and/or cafeteria. Consideration will be given to the possibility of outdoor classroom spaces.

Playfields, parking, service drives, drop-off zones and bus zones should be located to reduce the need for pedestrians to cross vehicular traffic lanes. The location of driveways, walkways and landscaping must permit adequate sight distances for both vehicles and pedestrians.

Site utilities and physical plant components, including drives and access roads, will be located to avoid conflict with student and vehicular traffic, as well as the planned future growth of building components. Staging areas for snow removal is required with Cape Cod style curbing preferred.

Landscaping will be designed to allow the school to blend with the environment as well as to provide passive cooling and windbreaks when possible. Trees and other greenery will be of a hearty variety, with a strong preference for native species, require little maintenance and which complement the building and site. Trees will be planted a sufficient distance from the building to avoid future maintenance problems. Consideration will be given to safety and security when placing foliage around walkways and areas of building access.

NORTON ELEMENTARY ED SPECS SPACE SUMMARY					
Room Description	# of Students Per Room	Required # of Rooms	Square Feet Per Room	Total Area (Sq. Feet)	
GENERAL EDUCATION PROGRAMS					
Early Childhood: Full-Day Kindergarten	16-20	5	1,100	5,500	
Early Elementary: Grade 1 and 2	16-20	10	950	9,500	
Intermediate: Grades 3-5	18-20	15	900	13,500	
Upper Intermediate: Grade 6	18-20	5	900	4,500	
Upper Intermediate: Grade 6 – Team Room/Storage		1	300	300	
Visual Arts – Classroom	16-24	1	1,100	1,100	
Visual Arts - Kiln Room and Storage		1	350	350	
Visual Arts – Auxiliary Classroom	16-24	1	1,000	1,000	
Music – General Music Room/Instrumental Music	16-24	2	1,000	2,000	
Music – Ensemble Practice Room		1	1,000	1,000	
Physical Education - Gymnasium		1	6,000	6,000	
Physical Education - Office and Storage		1	800	800	
Gymnasium – Chair Storage		1	200	200	
Platform (Stage)		1	900	900	
Media Center		1	2,950	2,950	
Reading/Math Coach Office		2	200	400	
Small group breakout rooms	1-5	3	125	375	
General Ed. Intervention Services (Math)	6-8	1	600	600	
General Ed. Intervention Services (Reading)	6-8	1	600	600	
Total				51,575	
SPECIAL EDUCATION PROGRAMS					
Special Education Resource Room	4-8	4	400	1,600	
OT/PT Resource Room and Speech		1	700	700	
Related Services (Social		1	650	650	
Worker/Psychologist/Counseling Room)		1	050		
Total				2,950	
ADMINISTRATION AND SUPPORT FACILI	TIES	Г	Г	<b></b>	
Principal's Office		1	200	200	
Administrative Office		1	200	200	
Main Office Secretarial Area		1	700	700	
Conference Room		1	300	300	
Health Services		1	650	650	
Teacher Workroom		1	300	300	
Food Services – Cafeteria		1	2,800	2,800	
Food Services – Kitchen and Manager's Office		1	1,950	1,950	
Faculty Lounge		1	600	600	
Technology Workroom/Storage		1	200	200	
Custodial Office Area		1	150	150	
Instructional Storage (Lit Closet, K-1, 2-3, 4-5 storage)		1	800	800	
General Supply Storage		1	600	600	
Total				9,450	
Total Program Area				63,975
