Social Emotional Learning - Building Positive Relationships with Families and in Classrooms

Teachers will share their progress implementing the Circle of Security (CoS) model of intervention which is grounded in attachment theory and supports adult caregivers to create secure attachments for children at home and in the classroom. Teachers will share how CoS is introduced to families and used in classrooms to build a secure base to support children's optimal development in and out of school, and how it increases adult capacity to recognize and respond to children's needs. Teachers will also highlight the evolution of Circle of Security in Cheshire Public Schools and how it continues to grow.

4. Adjournment
